Summary: This week I focused on finishing the css for my site. Although I did not finish I made a lot of progress and feel like I am in a good position to finish on time.

Goals: My goal this week was to finalize the css structure of my site.

Problems: Only problem I encountered this week was time. This week I was very busy and had a hard time finding time to work on this project

Time Log:

		Estimated Time to complete project ➔	**200** Hours
Date	**Time Spent (in hours)**	**Description**	**Author**
3/26/17	2	Brainstorming website ideas	Eric Langdon
